

Safety data sheet (SDS) information is principally intended for use by professional users and must enable them to take the necessary measures as regards the protection of health, safety and the environment at the place of work.

Content of the 16 sections of SDS:

1. identification of the substance/preparation and of the company/undertaking
2. composition/information on ingredients
3. hazards identification
4. first aid measures
5. fire-fighting measures
6. accidental release measures
7. handling and storage
8. exposure controls/personal protection
9. physical and chemical properties
10. stability and reactivity
11. toxicological information
12. ecological information
13. disposal considerations
14. transport information
15. regulatory information
16. other information
